

# S5200

## Super Wide Solvent Printer

**Docan** 东川  
Digital Printing System

### yüksek hız için en iyi seçim

- Starfire 1024 ( 2/4/6 kafa )
- Endüstriyel negatif basınç sistemi
- 450 m2 baskı hızı

Güçlü kasa

Çoklu baskı

Hızlı kuruma

### endüstriyel üretim

Industrial-grade magnetic grid, durable and high stability

Industrial-grade negative pressure system, ink supply is more stable and ink saving

## SPECIFICATIONS

|                       |   |
|-----------------------|---|
| Printhead             | Starfire1024  |
| Printhead Number      | 2/4/6 on option   |
| Printing width        | 5300mm  |
| Media thickness       | 2mm   |
| Printing Speed        | 2PASS 300*400 450 m <sup>2</sup> /H<br>3PASS 300*600 300 m <sup>2</sup> /H<br>4PASS 300*900 240 m <sup>2</sup> /H |
| Printing speed        | 1200DPI   |
| Machine size          | 7850mm(L) × 1520mm(W) × 1780mm(H)   |
| Machine weight        | 2000KG  |
| Power requirements    | Machine: 10A/220V Infrared; 27A/380V  |
| RIP software          | Maintop   |
| Image format          | TIFF/JPEG   |
| Takeup system         | On option   |
| Dry system            | Smart infrared dry, dry in sections: 1.7M/3.4M/5.3M   |
| Operation environment | Temperature: 20–28° C Humidity: 40%–70%   |

Adopt THK double guide rail, the carriage runs more balanced

Movable feeding fixed system, suitable for printing on different wide-format materials, and the media feeding smoothly

The carriage movement adopts 750w AC servo motor and reducer to ensure the stability of continuous work

The frame adopts an integrated wall panel mechanism and pin positioning to ensure the structural strength and integrity of the frame
